July 12, 2012

What is SyDjango all about?

Social

- Gives us an opportunity to get out from behind our monitors and meet others in the Django community.

Educational

- Shared ideas are better than separate ideas. Gives us a forum to learn from each other's discoveries and experiences.
- Promote Django to those who haven't yet had the pleasure (and pain) of working with it. A big community is better for the community.

Start some projects

- Who knows, maybe we'll get some open source projects out of this group. Or some startups.

Where can you find us?

SyDjango lives here:

- meetup.com/SyDjango
- sypy.eventbrite.com
- github.com/sydjango
- [syddjango@gmail.com](mailto:sydjango@gmail.com)

Tonight's Speakers

1 **Michela Ledwidge**

- ▶ Short talk on how she is using Django apps for interactive entertainment production at Mod Productions.

2 **Werner Fortmann**

- ▶ Demo of platform built on Django.
- ▶ Writing a custom manager.
- ▶ Multi stage CSV upload (for model creation).

3 **Gary Reynolds**

- ▶ Setting up a baseline for your Django projects.
- ▶ Sharing some of the tricks he has developed in 5 years professional experience with the framework.
